We live in one of the wealthiest countries on Earth – so why aren't we the healthiest, too? Instead, we face an epidemic of obesity, diabetes, and related illnesses. How did we get here? How do we get out? Come to this Café Scientifique and ask the experts yourself!

Share your questions and ideas in this informal discussion with researchers working in population health, nutrition, and social history with the University of Regina, University of Saskatchewan, and the Saskatchewan Population Health and Evaluation Research Unit (SPHERU).
